

Legg's Sausage Seasonings

Blend 10 pork sausage · Blend 111 fresh chorizo · premix dosing + the freezer workflow

MEAT	PORTION	GRIND	STORAGE
pork butt ~70/30	450 g bags	coarse → fine	freeze, months

DOSING

both bags season 25 lb (11.3 kg) — weigh your meat, multiply

BLEND / ADD	% OF MEAT	PER LB	PER KG	BAG · NOTES
#10 Pork Sausage	2.0%	9 g	20 g	227 g (8 oz) bag → 25 lb
#111 Fresh Chorizo	4.0%	18 g	40 g	454 g (16 oz) bag → 25 lb
Chorizo vinegar 5% acidity	~4.2%	19 ml	42 ml	1 pint per 25 lb — run it, don't skip

WORKFLOW

same freezer engine as the rest — keep everything cold

- 1 Coarse grind:** pork butt (~70/30), everything **near-freezing**, through the ½" (**coarse**) plate.
- 2 Dose:** weigh the ground meat; add the seasoning at the % **above**. **Chorizo: also add the 5% vinegar** — it's what makes it chorizo, not just spiced pork.
- 3 Mix: ~2 min** until tacky and bound (primary bind = holds together) — keep it cold; warm fat smears and goes greasy.
- 4 Regrind fine:** run it back through the fine plate — chorizo through **3/16"** (Legg's method seasons *between* the two grinds); breakfast too for a JD-smooth texture.
- 5 Portion + freeze:** into **450 g** bags, press flat, remove air, label, freeze.
- 6 Cook:** thaw. **Breakfast** — patties / crumble on the griddle to **160°F**. **Chorizo** — crumble and fry until rendered and crisp.

This is the premix baseline — run it, learn your grind and fat, and it becomes the bar the scratch versions have to beat. **Fat is the texture:** ~30% (pork butt) keeps both juicy; leaner reads dry and crumbly. **Cold is non-negotiable** — chill the meat, grinder parts, and bowl; smeared fat is the #1 way sausage goes greasy and won't bind. **Chorizo needs its acid** — the **5% vinegar (~4%, 19 ml/lb)** is what makes Blend 111 taste like chorizo. Legg's marks it optional — run it anyway.
