- 1 Melt:** toast the bread lightly; warm a meatloaf slice, top with cheese, melt under the broiler.
- 2 Close:** aioli on both slices, layer meatloaf + cheese, onions, extras; close, slice, serve with the fries.

**Run of show (~2 hr):** start the **aioli** and chill → **onions** on low and slow → mix, shape, and bake the **meatloaf** (350°F to 160°F), then **rest 10–15 min** → during that rest, parboil and bake the **fries** at 450°F → toast bread and melt cheese on the meatloaf → season fries hot, build, serve. The **meatloaf rest** and the **overnight fry soak** are the two non-negotiables.
